AUGUST VORNDRAN NURSERY

PRICE LIST No. 11

EVERGREENS A SPECIALTY

Evergreens • Trees

Rhododendrons and Azaleas

Shrubs • Vines

WEBSTER, NEW YORK

1062 Ridge Road

Telephone: Webster 285

TERMS AND INFORMATION

Prices are f. o. b. Webster, New York.
Packing extra at cost.

THIS LIST cancels all previous lists and prices are subject to change without notice. All orders subject to stock being unsold on receipt of order.

Terms Cash—For customers of established credit accounts will be opened due in 30 days from date of invoice. Interest at six per cent (6%) per year will be charged on all accounts from due date. Orders for C.O.D. shipment must be accompanied by one-third of the amount.

Special Selection—Plant materials specially selected at the nursery will be sold at prices commensurate with the value of the specimens chosen, irrespective of the listed prices.

SHIPPING—Please give definite shipping instructions. Otherwise we use best judgement but assume no responsibility. All shipments travel at risk and expense of purchaser.

"Standardized Plant Names" is authority for all names used in this catalog (with few exceptions).

All evergreens balled and burlapped.

* indicates lining out stock, prices on request.

B&B signifies balled and burlapped.

and our satisfied customers.

Situation

We are situated eight miles east from the City of Rochester on U. S. 104, Monroe County.

We are not in Japanese Beetle area.

AUGUST VORNDRAN NURSERY
1062 Ridge Road
Webster, New York

READ BEFORE ORDERING

True to Name. We use every precaution to have our stock true to name, but in case any should prove otherwise we will replace it or refund the amount paid, but in no case will we be responsible for any sum greater than that paid us for the stock.

Guarantee. We intend to send out only first class stock that should live and grow if given proper attention after you receive it. **We cannot, and do not, guarantee it to grow,** as climatic and soil conditions may be such that the plant just cannot grow.

Claims. If any, must be made in writing within five days from receipt of stock. We cannot become responsible for damages to stock caused by droughts, floods, frosts, insects, fire, etc., and by stock not being taken from express office for several days after arrival.

Hansen's Improved New Bush Cherry

The result of 30 years of research by Dr. N. E. Hansen of South Dakota State College. Ideal for flowering hedge, single specimen or groups from which you can pick loads of fruit. Well-shaped bushes are completely covered with large, white, fragrant flowers in early spring. Leaves are a beautiful silvery green, turning to a rich red and gold in the fall. Fruit resembles a plum in shape, and is borne in clusters that at times nearly cover the limbs.

Good to Eat from the Bush. Fine for sauce. Makes wonderful, rich-flavored, dark purple jam. Juice is great for jelly and makes excellent cordial.

Bush Saves Space. Does not require the space of an ordinary plum tree, yet often bears more fruit. Can be planted as closely as 4x6 feet. Grows only 4 to 5 feet high, with 3 to 4 foot spread. Fruit in one year—No long waiting.

2-3' ----- \$.60.

3-4' ----- \$.80

R. Album elegans White, rapid growing		
R. America Very best red color		
R. Amphion Large deep pink flower with pure white center		
R. catawbiense album Pure white, very hardy		
R. grandiflorum Rosy lilac, buds heavily, very hardy		
R. Dr. Dresselhuys The best tall growing red variety		

- R. Everestianum** Pale lavender flowers yellow spotted, slow growing dwarf variety
- R. Ignatius Sargent** Light red, rapid grower, very hardy
- R. Kettledrum** A very hardy red variety
- R. Lee's Dark Purple** Very hardy dark purple
- R. Mrs. P. DenOuden** Strong grower fiery crimson
- R. Parson's grandiflorum** Hardy solferino red
- R. President Lincoln** An easily forced tall growing lavender variety
- R. Prof. Bettex** Immense scarlet spotted flowers
- Purpureum elegans** Produces an abundance of purple flowers
- P. Roseum elegans** A hardy orchid pink variety
- P. Roseum grandiflorum** Good carmine color
- P. Van Der Brooke** Strong grower, fine dark spotted carmine flowers
- P. Van der Hoop** Light Tyrian red
- P. Van Werden Poelman** Large crimson flowers
- Spartium**—See page 30

|--------------|-----|

- C. s. Dorothy Walpole***
Tricolor effect, crimson with rosy-cream background. Flowers a little smaller but are the deepest colored of all.
18-24" ----- 1.00
- C. s. Donard Seedlings***
Garnet and yellow.
18-24" ----- 1.00
18-24" ----- .75
- C. s. Andreanus Hybrids***
All shades from yellow to red.
18-24" ----- 1.00
- Daboecia polifolia rosea** Pink Irish Bell Heather*
6-8" ----- .40
- Erica stricta** Corsican Heath*
Fine, dense, bright green foliage. Native of Corsica. One of the hardiest of the heaths.
10-15" ----- .75
- Fuchsia Magellanica**
1 year plants ----- .50
- Fuchsia Magellanica alba**
1 year plants ----- .50
- Fuchsia Riccartoni**
1 year plants ----- .50
- Genista dallimorei***
Handsome both in foliage and blossom. Abundant bloomer with flowers of mottled red, yellow and orange, red predominating. Compact and rare.
12-15" ----- 1.00
- G. germanica** German Broom*
Very spiny, stiff upright branches. Yellow flowers. Good for hedges, makes a splendid buffer evergreen.
18-24" ----- .50
- G. sagittalis***
Creeping broom. Yellow flowers. Very attractive. Makes a dense mat on the ground 2 to 3 feet in diameter.
9-12" Spd. ----- .50
- G. tinctoria***
Best known and most widely planted, late flowering, grows to 2 feet.
18-24" ----- .75
- G. t. flora plena***
Most profuse bloomer of all brooms. Low growing, height 5 inches, spreads 2 to 3 feet. Golden yellow flower heads, hides the foliage.
10-15" Spd. ----- 1.00
- Spartium junceum** Weavers or Spanish Broom*
Upright shrub, has slender, rush-like branches which are almost leafless and bluish-green in color. Fragrant bright yellow flowers are borne in large terminal racemes. Hardy as far north as Philadelphia. Hardy here is sheltered.

NEW HYBRID BLUEBERRIES

Prices of plants	Each	3
12-18" -----	\$1.25	\$3.25
18-24" -----	1.75	4.50

Varieties: Burlington, Concord, Jersey, Rancocas, Stanley.

Aluminum Sulphate

Azaleas, Rhododendrons, Blueberries, Cornus Florida, Heather, Kalmia and many other plants require an acid soil. Acid-forming organic matter, such as well rotted oak leaves, helps to increase acidity. Aluminum Sulfate is a good chemical for increasing soil acidity by using 1/4 to 1/2 pound per square yard. Also used for turning hydrangeas blue.

5 lbs., \$1.00; 50 lbs., \$5.00; 100 lbs., \$7.50
